Canada Bioeconomy Event

Curious about the bioeconomy in Canada?

Join us for an afternoon event in Stockholm on April 4!

Learn from the Canadian experts about the latest developments in the Canadian bioeconomy landscape.

Meet the Canadian Bioeconomy Trade Delegation that will pitch opportunities and their interests. Network in the b2b session and identify new Canadian partners and projects.

Program

- 13:45 Registration open
- 14:00 Welcome by Ambassador Heather Grant
- 14:10 Canada's Bioeconomy
Dr. Murray McLaughlin
Advisor to Canada's Bioeconomy
- 14:40 Q&A session
- 15:00 Coffee break
- 15:15 Canadian delegates pitch their interests
- 16:15 Networking reception (b2b session)

When: Thursday, April 4, at 14:00-18:00

Where: Embassy of Canada to Sweden
Klarabergsgatan 23, 7th floor, Stockholm

A forest bioeconomy framework for Canada

- The vision behind the framework is simple yet bold: Canada will be a global leader in the use of forest biomass for advanced bioproducts and innovative solutions. There are multiple sources of clean energy in Canada - hydroelectric, wind, tidal, geothermal, solar, and bio (for electricity, heat, and fuels) —yet biomass is the only renewable source that can substitute the carbon from fossil fuels found in chemicals, plastics and composites.

The Canadian Delegation is organised by Biomass North Development Centre representing the following target sectors: clean technologies; biofuels; biochemicals; bioproducts; forest equipment; value-add forestry; renewable energy systems; manufacturing; agri-business; research & innovation.
