

Agenda

Scaling up biomethane on the pathway to a net-zero future

13th October 2021 / 11.00 – 12.30 CEST

11.00 AM **Welcome – Christian Rakos, President, World Bioenergy Association**

11.05 AM **Plenary Presentation**

Biomethane's role in delivering net zero

Paolo Frankl, Head of Renewable Energy Division, International Energy Agency

11.15 AM **Panel 1 (Policies and Research)**

Representatives from leading associations and research groups will present a brief overview on status of biomethane in the region, policies to drive the uptake to meet a net zero future as well as the latest research development

Susanna Pflüger, Secretary General, European Biogas Association

Dirk Bonse, Head of Department Renewable Gases, Fachverband Biogas

Dr. A R Shukla, Ex-Advisor MNRE, and President, Indian Biogas Association

Berend Vreugdenhil, Task Leader Gasification of Biomass and Waste, IEA Bioenergy

11.45 AM **Panel 2 (Technologies and Market)**

Representatives from leading private sector companies in biogas and biomethane will briefly present latest technological advances in the production, processing, upgrade, and utilization of biomethane along with developments in emerging markets around the world

Mette Smedegaard Hansen, Head of Regulatory Affairs, Nature Energy

Gwenaël Le Fournis, Solid Waste and Landfill Director, Veolia

Giuseppe Perrone, Head of Biomethane Projects, Eni

Pharoah Le Feuvre, Market and Strategy Analyst, Enagas

12.15 PM **Audience Q&A**

12.30 PM **Wrap up and Concluding Remarks – Christian Rakos, World Bioenergy Association**
